

# CHANGE MAKERS

## Host an academic

### UQ is home to world leading academics and researchers.

As part of the UQ ChangeMakers network you will have access to these academics, and we are here to facilitate introductions to enhance your professional network.

We encourage you to invite our academics to be a part of your alumni network by:

- Inviting academics to speak at UQ alumni events when they are in your region

- Hosting virtual 'meet an academic' events and webinars
- Facilitating introductions to alumni and industry professionals
- One on one conversations with leading academics
